۳	متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید. Reading is a way of communicating between the person who writes a book and the person who reads it. When we read, we learn new things and understand the world better. Reading is essential for our education and can help us succeed in life. To make reading a habit, we need to read regularly and think carefully about what we read. Reading is a process that requires hard work. We need to be interested in what we're reading, have a purpose for reading it, and use strategies to understand the text. We read books when we need information about a subject. Active reading is when we read with questions in mind and try to find the answers. It's a skill that takes a long time to develop. In short, by reading carefully, we can improve our understanding of the text and learn more <u>effectively</u> .						۱۴
	❖ True/False						
	45) Reading is a process that needs hard work. a. True b. False						
	46) Reading regularly and thinking carefully make reading a habit. a. True b. False						
	❖ Choose the best answer.						
	47) The above passage can provide answers to all following questions <u>Except</u> -----.						
	a. How long does it take to develop active reading?						
	b. How can people improve their understanding?						
	c. Which book is better for people to read?						
	d. When should people read books?						
۴	48) The underlined word " <u>effectively</u> " in the last line means in a way that is -----.						۱۵
	a. peaceful b. boring c. confusing d. successful						
	❖ Answer the following question.						
	49) What is active reading?						
	متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید. The first wind machine was in Manjil, Iran, in 2001. The machine had three blades (wide parts) that moved in the wind, and could use the kinetic energy of the wind to make electricity. This wind machine was necessary for Iran because it gave renewable energy, unlike ways that used fossil fuels. It also helped make less pollution and carbon gases. Running the wind machine was not easy. <u>It</u> needed careful planning and engineering knowledge. Engineers put it in a place with strong wind. Manjil was a good place because it had open land that was always windy. After the first wind machine, more have been made in Iran. These machines have added a lot to the country's energy-making and made the country less dependent on nonrenewable resources. In short, the first wind machine in Iran was a big step in energy production. It produced lots of energy and made less pollution. Its success has made more wind machines in Iran.						
	❖ True/False						
	50) The first and the last wind machine in Iran was in Manjil. a. True b. False						
	51) The wind machine in Manjil used fossil fuels to generate electricity. a. True b. False						
	❖ Choose the best answer.						
	52) All the following choices are true about the wind machine in Manjil <u>Except</u> it -----.						
a. ran very easily b. gave renewable energy							
c. made less pollution d. produced lots of energy							
53) The underlined word " <u>It</u> " in line 4 refers to -----.							
a. pollution b. renewable energy c. wind d. wind machine							
❖ Answer the following questions.							
54) How could wind machine make electricity?							
55) Why was Manjil a good place for wind machines?

4	<p>متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید.</p> <p>Energy has become a serious issue in recent century and many solutions have been offered by some organizations. They may ask people to consider saving energy. To achieve this purpose, we need to make small changes in our lifestyles. We should do everything efficiently, with no waste of time or energy. It can be possible by turning off lights when they are not needed, or unplugging TVs and computers when not using them. Managing inside temperature can also help. Therefore, we should adjust the temperature in our buildings to use less energy for heating and cooling. Another important factor for householders is knowing the time when the energy is at its peak – when the energy consumption is generally high. For example, in summer, when all cooling systems are in use, adding a washing machine to the cycle results in system failure or an unexpected high electricity bill. Another way to save energy is replacing devices and windows with energy efficient ones. To keep the heat inside during cold seasons, it's advisable to check our homes for any openings, and add insulation or protection materials. These simple things can protect the environment and save money on our bills.</p> <p>❖ True/False</p> <p>45) It is not easy to change our daily lives to save energy. a. True b. False</p> <p>46) Saving energy meets the economic and environmental needs. a. True b. False</p> <p>❖ Choose the best answer.</p> <p>47) The above passage provides answer to all the following questions <u>Except</u> ----- .</p> <p>a. What does 'efficiently' mean?</p> <p>b. When should we turn off lights?</p> <p>c. Why is it necessary to check our home temperature?</p> <p>d. How can we measure the inside temperature?</p> <p>48) The author recommends ----- as one of the ways to save energy.</p> <p>a. using devices which consume less energy</p> <p>b. taking the protection materials away</p> <p>c. using washing machines during the peak time</p> <p>d. making more openings and windows in the walls</p> <p>❖ Answer the following questions.</p> <p>49) How does the passage define 'peak time'?</p> <p>50) What is the author's suggestion about replacing the devices and windows?</p>						N
4	<p>متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید.</p> <p>When reading, you may find some words that are often written in capital letters, and seem to be different from other words in the text. Sometimes, these words sound difficult to pronounce. Abbreviations and acronyms are two examples of such words. They are short forms of words and phrases. An abbreviation is a shortened form of a word used in place of the full word (e.g., Adj for Adjective). An acronym is a word formed from the first letters of each of the words in a phrase or a name (e.g., IRIB for Islamic Republic of Iran Broadcasting). They help to make writing easier to read and understand. They also help us to write within a specific word limit, and avoid repeating the same words over and over. Sometimes, authors create new acronyms when <u>they</u> invent a new technique and want to make it sound cool. This helps people remember the technique more easily.</p> <p>However, we should use these short forms carefully. Using too many of them can make the text harder to read, especially for people who do not know what they mean. It can confuse readers and make them lose their interest. To avoid wasting time reading through pages to find the definition of an unfamiliar word, we should use such forms sparingly and only when they're really necessary.</p>						O

۴	N	<p>متن زیر را با دقت بخوانید و به سوالات داده شده پاسخ دهید.</p> <p>A collocation is two or more words combined together. These combinations sound natural to native speakers, but students of English have to learn them with exercise because they are often difficult to guess. The unnatural combinations are wrong for native speakers of English. As an example, the adjective "fast" collocates with "cars" but not with "look." Learning collocations is the most important part of learning the vocabulary of a language. Some collocations seem fixed or very strong. In "take a photo," no word other than "take" collocates with the photo to give the same meaning. The other example is "make an effort" and not "do an effort."</p> <p>Some collocations are more open, because several words may go together to give a similar meaning, for example, "keep to or stick to the rules." Sometimes, a pair of words may not be wrong, and people will understand it, but it may not be the natural collocation. If someone says I did a few mistakes, a fluent speaker of English may understand, but it would probably say, "I made a few mistakes."</p> <p>❖ True / False</p> <p>45) A word that is often used naturally is called collocation. a) True b) False</p> <p>46) In learning the words of a language, learning collocation is important. a) True b) False</p> <p>❖ Choose the best answer.</p> <p>47) Which of the following is NOT true about collocation?</p> <p>a) Learning collocations is important b) Collocations can be learned by practice</p> <p>c) Collocations are natural to native speakers d) Guessing collocations is always hard for all</p> <p>48) According to the passage, which of the following is a natural collocation -----.</p> <p>a) I did a few mistakes b) I did an effort c) fast cars d) fast look</p> <p>❖ Answer the following questions.</p> <p>49) Why are some collocations called more open?</p> <p>50) What is a collocation?</p>	
		<p>متن زیر را با دقت بخوانید و به سوالات داده شده پاسخ دهید.</p> <p>Most of our energy comes from fossil fuels: oil, coal, and natural gas. Fossil fuels are from plants and animals that lived millions of years ago. They are nonrenewable energy resources since they take millions of years to form, and we cannot replace them easily. By burning oil and coal, we get energy. It may be impossible to find them someday to create this energy. We need to use less energy to save these natural resources for the future.</p> <p>There are many options to lower home energy use with simple changes and good energy habits. It is about being aware of our energy uses. Simple actions can reduce energy consumption. Many people are using more and more energy. It causes our weather conditions to change and may result in higher energy bills. We all need to be more energy efficient and use less, reuse, and recycle it in our homes. Working together to save energy will help us have a healthier planet for future generations.</p> <p>❖ True / False</p> <p>51) We have burnt plants and animals as fossil fuels for millions of years. a) True b) False</p> <p>52) Simple changes and good energy habits lower home energy use. a) True b) False</p> <p>❖ Choose the best answer.</p> <p>53) The above passage can provide answer to all following questions Except -----.</p> <p>a) What are the different kinds of fossil fuels?</p> <p>b) Where are fossil fuels from?</p> <p>c) How can we have a healthier planet for future generations?</p> <p>d) When should we use less energy to save natural resources?</p> <p>54) The underlined word "consumption" is closest in meaning to -----.</p> <p>a) demanding b) saving c) using d) changing</p> <p>❖ Answer the following questions.</p> <p>55) What causes our weather conditions to change?</p> <p>56) Why are fossil fuels nonrenewable energy resources?</p>	O
